This dlc is not ment for beginners, It's ment for experienced players and Glados, your a d\*\*\*.. Super DLC , f\u00fcr Portal fans :). This DLC adds excellent levels and GLaDOS (and all the heckling that goes along with that)!

The combination of the Portal (game by Valve) graphics and GLaDOS voice\character into the Defense Grid world was excellent. While the DLC on the whole is really very good and recommended, the DLC needed some level-balancing...the very first level took me about 5 tries to find a path\solution that would even remotely work and, for me, was by far the toughest map of the entire DLC. A couple other maps in this DLC gave me challenges too, but that's part of the fun; only that first map, I thought was too tough, especially for a first map of a DLC.

This DLC is also unique in that it would come up with 'twists' during the level...it would remove a couple towers, or not allow you to build a certain type of tower, or only allow you to place command towers while it placed all other turrets, etc. This DLC made for unique set of challenges and a lot of fun.

Despite the 8 maps, however, this is a short DLC taking only roughly 2.5hrs to complete the campaign and that's including my struggling on 2 of the levels.

Not quite as good as the Resurgence DLC set (my favorite), but certainly a very nice DLC indeed. 8.5 out of 10 . Best tower defense game gets better! Ups the challenge quite a bit, thank god for the rewind button.. Loved the dlc! <3 Add's more Challenges to defense grid and also Bring's in one of the most loved Robotic voice over ever GLADOS! Very challenging and good and you won't be dissapointed =D. Excellent addition to an awesome tower defense game.. BEST. DLC. EVER. MADE.

F\*\*\*ING GET IT MATE.. Can't recommend this enough, even just for GLaDOS.

Hey! You can hear another lines from GLaDOS just for 4.99\$!. The best DLC ever! I really enjoy these maps, especially my favorit (last one)! Five stars!. I just finished the story modes of this new DLC and cannot recommend it enough if you already like Defense Grid. And if you are a Portal fan (who isn't?), then I recommend it all the more! This DLC is different from all the previous ones (aside from the Portal theme), in that every level throws in some new and interesting twist unlike anything seen in the main game. I guarantee you will be surprised at some of the unique wrenches GLaDOS throws into the works. It's really fun, and also challenging. Definitely pick this one up if you already own DG, or maybe even if you don't. And now, if you'll excuse me, I must get back to playing all of the alternate game modes :) .... Innovative twists introduced by GLaDOS make each new level of this DLC something unique, as what you thought you knew about the 'rules' changes each time. Heartily recommended.. GLADOS!

ARGHAGHGRGASGDHGASHDGASHDG~!

^If this review has not made you want to buy this game, you need to be tested.. Brings GLaDOS to Defense Grid, what more do I have to say? The humor from Portal ported to Defense Grid, awesome!. One of the best gaming cross overs ever, combining the strategy of defense grid, pushing you to think outside your strategy box all the while being heckeled by Glados. It's a bitter sweet combination that leaves a replayable and fun exerience.
